OHIO DEPARTMENT OF NATURAL RESOURCES
DIVISION OF RECLAMATION

ORIGINAL

APPLICATION TO REVISE A COAL MINING PERMIT

1. Applicant's Name The Ohio Valley Coal Company
Address 56854 Pleasant Ridge Road
City Alledonia State Ohio Zip 43902
Telephone No. 614 - 926 - 1351

2. Permit No. D-0360.

3. Section of mining and reclamation plan to be revised:
Subsidence Control Plan

4. Describe in detail the proposed revision and submit any necessary drawings, plans, maps, etc.:
See attached map. The area proposed must become part of the shadow area for the full coal recovery area.

5. Describe in detail the reason for requesting the revision:
The 4 West gate section was originally planned to be a four entry section. Circumstances in the mine required the change to a 3 entry section. This change requires that the subsidence control plan be changed to include the area for the fourth entry in the shadow area designated in full coal recovery area. The area proposed is still within the projected subsidence zone and does not constitute a significant change in the permit area. The area is currently being monitored for subsidence and damage. There are no other landowners or properties affected by this change. The county, section, and township are the same.

6. Will this revision constitute a significant alteration from the mining and reclamation operations contemplated in the original permit? Yes, X No.

(Note: refer to paragraph (E)(2) of 1501:13-4-06 of the Ohio Administrative Code for information concerning significant revisions.)

If "yes," complete the following items 7 through 9.
